Again this year the State Aid grant of \$100.00 was for the purchase of reference books. These are especially helpful to junior and senior high school pupils in preparing research reports, and have contributed considerably to our reference resources for adults.

The library is very fortunate to have been given so many books and magazines, and magazine subscriptions to **Look** and to **The Golden Magazine**. Of the 203 books, 143 were from the collection of Alice and Michael Woods, most of which are the **Little Golden Book** type. These have provided much enjoyment particularly to the pre-school children. Mr. Harold G. Titus of Berlin gave a David Sutherland **History of Bath** in the original edition. In the early summer RCA sent the library 50 recordings, in type ranging from country and western music to concerts. Since then Mrs. Foster

Carr has given 5 to add to our "listening library."

The young people have been most cooperative. Steven Ide, noting the need for a cabinet to hold the records, volunteered to design and make one. Jody Estes, in September, offered to assist with the younger school children on library days and has helped a great deal. During July Linda Lamarre conducted a successful Story Hour with 16 boys and girls, aged five to ten. Since then she has arranged three book exhibits, one for Thanksgiving holiday reading, one for Christmas, and one of suggested books for teen-agers. In addition, she made posters for the library window urging every citizen to vote in the November elections.

REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

New Hampshire is the fastest growing state in the northeast in terms of population increase. It is also an industrialized state and this growth is likely to continue, all of which means more families and homes. Our growing summer population is scattered throughout the state with a phenomenal increase in vacation homes.

Many new homes and practically all cottages are being located in woodlands and abandoned fields and forests crowd into the back yards of our village streets. In a state where the forests cover 86% of the land surface, it is necessary that everyone be aware all through the season, which comes with the disappearance of the snow until the snow comes again, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To **never** discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn—
 - a. You need a written permit from the town fire warden for **all** debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal brasiers in your own back yard is permitted on notification of the warden.
 - b. The warden is forbidden by regulation to allow burning of household rubbish on grass by householders between 9:00 A.M. and 5:00 P.M.
 - c. Have equipment on hand to control the fire **before** you light the match.

4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save our tax dollars for useful purposes.

Mar. 22—Mabel Reed—Fire around fireplace
Mar. 24—Max Stewart's Apartment—Pumped out cellar
Mar. 30—Dump fire
Apr. 13—Arthur Joy—Fire in kitchen

At the Raymond Hill fire, our 750 gal, per minute Seagraves pumper more than proved itself by pumping water continuously for eight hours. This performance gave us a great deal of confidence in this piece of equipment. As they have in the past our tank trucks proved themselves more than adequate in coping with brush, grass and dump fires.

In 1968, equipment added to our fire arsenal included; 100 ft. of high pressure 1½" plastic hose to be used on the Chevy tank truck. We also purchased a 4½" by 2½" wye and a 2½" fog nozzle to be placed on our pumper.

In the spring of the year, ten of our members attended classes held at the Fire Station by Bob Gilbert of the State Fire Marshal's Office. These classes were to instruct members on the types and uses of fire pumps. One of the objectives here was to familiarize

firemen with our own pumper.

We have started a Savings Account with monies earned and donated to the Dept. We hope to save enough in this account to purchase a newer and more powerful vehicle upon which we can place one of our tanks thus retiring one of our older vehicles. With a more powerful truck, we will be able to deliver our water capacity to fire sites much quicker.

In the near future, our Dept. will be on a Red Phone System, thus solving one of our more troublesome problems, that of communication. This system will enable persons to contact the Dept. much faster when the need arises. The Dept. will get our phone number to the public as soon as this system is installed.

Members of the Dept. wish to express their appreciation for the assistance, financial and otherwise, you the taxpayer and neighboring Fire Depts. have given us.

1968 - 1969

The school board dilemma as to how to finance local school programs with an overburdened property tax continues to play havoc with our school budget.

As a point of interest, it might be well to illustrate to the paying public how little the State of New Hampshire returns to local coffers as compared to what they should be paying under existing statutes. We have estimated that, in 1969-70, the Bath School District will receive as its share of the Foundation Aid Program the sum of \$14,125.00; while, if this program were fully implemented according to the current law we would receive \$40,651.17.

If the foregoing were ever to come to fruition, Bath would have to raise through local property taxation \$40,907.92 instead of the amount listed at \$67,434.09 in 1969.

Our major budget increases this year are reflected in teachers' salaries, transportation and tuition payments.

In addition, areas where we have little control, as far as increases are concerned, can be seen in fixed charges where local contribution to social security has risen this year from 4.4% to 4.8%. Also, the minimum wage law dictates that we pay our school help a minimum of \$1.45 in 1970 and \$1.60 in 1971.

When all these factors are analyzed and grouped together there doesn't seem to be any area where we can economize and still provide a minimal educational program for our children in Bath.

May I take this opportunity to thank the school board, teachers and taxpayers of Bath for their wonderful support during the past year.

Respectfully submitted,

NORMAN H. MULLEN

SUPERVISORY UNION #23
REPORT OF SUPERINTENDENT'S SALARY

Section 5, Chapter 243, Laws of 1953 of the State of New Hampshire, requires that school district annual reports show the total amount paid to the superintendent.

One-half of the supervisory union expenses is prorated among the several school districts of the union on the basis of adjusted valuation. One-half is prorated on the basis of average daily membership in the schools for the previous school year ending June 30. The Superintendent of Supervisory Union #23, during 1968-1969, will receive a salary of \$14,000.00, which is made up as follows: \$3,500.00 to be paid by the State Department of Education and \$10,500.00 prorated among the several school districts. Allowance of \$1,500.00 for travel within the Union is also prorated as stated above.

The table below shows the proration of salary and travel to each school district:
